<p><b>Reception</b></p>	<p>The Staniforth Works on Main Street date from 1743, and were originally built for scythe and sickle making. Main Street was actually a smithy pond! The Works were built by Thomas Staniforth who also owned a forge at Carr Forge, one of many in the area. Some of the old forge dams still survive in the Shirebrook Valley. These also fed waterwheels for grinding the scythe and sickle blades.</p> <p>In 1899 Hackenthorpe got its very own church. Christ Church was built at the top of Sheffield Road, initially as a Chapel of Ease for St Mary's Beighton. It was paid for by Mr Hounsfeld, owner of Cotleigh Hall. He built it close to his house – Cotleigh Hall which was near to the top of Sheffield Road, so that he could walk there easily, yet it was quite a long walk for the people who live in the village.</p>	<p>Thomas Staniforth Visit: Shirebrook Valley; local area walk</p> <p>Visit to Christ Church or a visit from them into school.</p>

John Brown was born in Sheffield in 1816, and became known as the Father of the South Yorkshire Iron Trade. Henry Bessemer, born in 1813, made his fortune in Sheffield from his Bessemer process for steel. This was the first inexpensive industrial process for the mass production of steel from molten pig iron. The process was hugely significant for the steel industry, as it lowered the cost of steel production, leading to the substitution of steel for cast iron. Florence Nightingale – one family home was in Lea Hurst, Derbyshire. She was a nurse and she saved the lives of many soldiers during the Crimean War (1854-56). She changed the way that hospitals were run and was the founder of modern day nursing. Scarborough – first real seaside town – Spa Family holidays over time</p>

The monument runs along the eastern slope of Wincobank Hill and appears to have been constructed on top of an outcrop of Parkgate Rock sandstone. Surviving sections of the Ridge run along the east side of Wincobank Hill, below the hillfort, and to the north of Beacon Road and Jenkin Avenue. North of Jenkin Road, a further section runs downhill towards Meadowhall.</p> <p>A Roman Estate Centre at Whirlow Hall Farm, Sheffield- Excavations at Whirlow Hall Farm, Sheffield, have revealed the remains of a Roman site. It comprises a rectangular enclosure approximately 70m square defined by a ditch that has been cut down to bedrock. There were two entrances; one on the east side that looks down the Sheaf valley towards Sheffield City centre, and one on the west side that opens out on to an ancient sunken track that is thought to have connected to the Roman road network in the area near Ringinglow.</p> <p>Weston Park museum and many buildings in Sheffield are influenced by Greek architecture.</p>	<p>Whirlow Hall Farm</p> <p>Weston Park Museum workshop Jessica Ennis – Olympic link</p>
