	Mae Jemison reading text	George Robert Carruthers, video/diagram of UV spectrograph, Gladys West – pioneer developer of GPS Dr Mae Jemison		
		https://www.youtube.com/watch?v=B0vGDfuWhfl		
	Evolution and inheritance: The history of many scientists contributing to the theory of evolution over many years from around the world.	Evolution and inheritance: Rosalind Franklin – double helix in DNA Mary Anning – first palaeontologist (found fossils)		
Y5/6 Cycle B	Electricity: Discuss how electricity varies across the world	Light: Look at Helen Keller (little people big dreams)		
		Animals including humans: circulatory system and human life cycles: Tu YouYou – discovery of first pharmaceutical to treat Malaria. First female Chinese Nobel Prize winner.		
Wider	Road Safety Garrett Morgan inventor of 3 light traffic light 1923			
curriculum				
	HISTORY			
Y1/2 Cycle A	Include Mary Anne Rawson – campaigned against slavery Link Mary Seacole with Florence Nightingale research	Mary Seacole - Comparison/ similarities to Florence Nightingale		
Y1/2 Cycle B	Civil rights activist Discuss segregation and apartheid	Rosa Parks. BBC education clips Nelson Mandela		

Y3/4 Cycle A	Important to show images from different areas of these ages- most represented as	https://www.nationalgeographic.com/history/article/tzi-the-iceman-what-we-
	white however there were many different regions. New evidence found showing	<u>know-30-years-after-his-discovery</u>
	darker-skinned people in Asia.	(Mummified Neolithic man found in the Alps)
	Understand that not all tribes and groups had similar values and qualities- others	
	ate different things, worked in different ways etc.	
	ate different tilligs, worked in different ways etc.	
	Evidence that first African people made their way to Britain as early as 3 rd century	
	AD- skeletal remains of woman with sub-saharan ancestry discovered in East	
	Sussex from 200-250 AD. Also another found with expensive jewellery and items	
	(so were unlikely to be slaves).	
	Troops from North Africa to Garrison Hadrian's wall.	
	Rome had an African emperor- Septimus Severus and Quietus Lollius Urbiscus	
	from (now-called) Algeria became a governor of Roman Britain.	
	During Roman Britain, culture was changed significantly- there was no sense of	https://www.history.co.uk/article/the-history-of-black-britain-roman-
	national identity other than that of local tribes. Also could look at similarities now	africans#:~:text=Although%20a%20gradual%20process%2C%20the,the%20Roman
	between countries that Romans ruled to see how e.g. England and Northern Africa	%20Empire%20was%20multicultural.
	or Southern Europe e.g. certain language and religion.	Septimus Severus and Quietus Lollius Urbiscus
	Ancient Greece had colonies scattered around the Mediterraean Sea. There were	https://globaldimension.org.uk/resource/romans-revealed/
	Greeks in Italy, Sicily, Turkey, North Africa, and as far west as France.	
	See MTP – legacies from Ancient Greeks	
Y3/4 Cycle B	Unsure about what they looked like- many arguments to suggest different colours	Cleopatra was from Greece
	of skin Nubian pharoahs (Suddan/Nubia)	
	Mention as in introduction – Egyptian slaves and where they came from.	
Y5/6 Cycle A	Angles, Jutes, Saxons – What were the different cultures? How did they integrate?	Portals to the Past – Visit on Anglo Saxon life and culture
	Introduction of Christianity – changes in Religion	St Bede
