Year	5/6	Teachers	Mrs Rachel Sykes	Term	Spring Sp	
Theme	Graffiti			Artists	Graffiti artists	
Hook	lay with juggling bags			Reflection	Art Exhibit	

Subject	Week 1-2	Week 3-4	Week 5-11	Week 12
L	Annotate photographs of Juggling Bags Materials used Durable Joining technique Attractive Shape Size How is image/pattern applied Intended user Filling Cost 2) Can I create a design criteria? Children think about WHO they'd like to make their juggling bags for and write a criteria based on their interests, costs and quality. The juggling bags should be attractive with graffiti style writing on using vibrant colours for an 11 year old. The juggling bags should be a pair so the user can juggle The juggling bags should be made at a reasonable price to compete with high street prices. 3) Research how much products cost to make. Use ipads to research cost of juggling bags on Etsy and Amazon.	DESIGN Can I design a juggling bag suitable for intended user? Use my design criteria to inform my design. Develop labelled designs based on their design criteria. Plan and draw 2 designs based on the users demands/design criteria Label materials to be used (fabrics and fillings, thread) size, how decoration will be applied (fabric pens/felt tips) joining technique (invisible stitch/straight stitch) price of total products x 2 (using price list).	MAKING Can I make a juggling bag on a budget that is robust enough to withstand use? 1) Techniques Invisible stitch to enclose filling. Juggling bag template. Fabric pens/crayons 2) Making the juggling bag Pin template to fabric. Cut out with shears neatly. Apply graffiti design with fabric pens/crayons Stitch all but one sides with straight stitch. Fill with rice. Invisible stitch last side. Test for durability.	Evaluate my product against my design criteria. The juggling bags should be durable to withstand wear and tear. The juggling bags should be attractive with graffiti style writing on using vibrant colours for an 11 year old. The juggling bags should be a pair so the user can juggle. The juggling bags should be made at a reasonable price to compete with high street prices. Can I Identify the strengths and areas for development of ideas and made products? Is your product suitable for your intended user/s? How attractive to buyer do you think your juggling bags are? WHY? Do you think your product is as durable as it could be? Is your juggling bag value for money? What did you enjoy about the juggling bag unit? What skills did you learn?
